COLOPHON

This book is set in Source Serif 4 for the text, Inter for headings, tables and diagrams, and JetBrains Mono for code, with DejaVu Sans and Noto Emoji supplying a few symbols. All are open-licensed typefaces. Trim size is 7.5 by 9.25 inches.

It was typeset directly from the Markdown of the repository at commit faf55fa, so the book and the repository can be kept in step. The 570 diagrams were drawn from their Mermaid sources as vector art. The staircase motif has one step for each of the twenty-one levels. The typesetting toolchain is in the `book/` folder of the repository, and you can rebuild the whole book from it with a single command.
